

Every rival sold protection. Ferronato sold discretion.

FERRONATO KGS GROUP · LUGANO · 16 COUNTRIES · 100+ MARKETS

A fourth-generation Swiss group with thirty years of privacy technology in defence and aerospace entered the consumer market for the first time. Every brand already in the category sold protection to people who felt threatened. EOv positioned the other way.

FOUNDED IN LUGANO

THE DECISION	Privacy as a product, not a promise. Sleeves, pouches, totes and briefcases in metallised fabric — the benefit is physical, which is what made it provable.
THE LAUNCH	Global debut at the Swiss Pavilion, Expo 2020 Dubai. One brand system across boutique, campaign and atelier, plus three festive films.
THE LIMIT	Organic search was never the channel for this category and was not treated as one. A category-first launch is measured in coverage and doors.

HOW EOv WORKS

Success defined before spend · measurement built before launch · accounts built in the client's name. An Emirati-founded integrated marketing agency in Abu Dhabi and Dubai, working in the UAE since 2006.
